# Creating Happy Memories...

---

This year, Streetwise Lancashire, has remained committed to providing a free and affordable provision of positive activities and groups for both youth and community to access. The impact of being awarded significant funding will be game changing to the provision being delivered.

“They both love coming to Streetwise and engaging in activities and fun, they always say what a great time they’ve had! The summer club has really benefitted our family as I have been struggling to walk, so day trips out or a holiday anywhere are pretty impossible or hard work. So, they would have unfortunately spent a lot of the holidays at home. Which would have had a bad impact on their mental health but also my own. I really appreciate the summer holiday club and help they provide, plus the meals they have at Streetwise help me a lot especially as I’m a single parent too. ”

  - average 8 sessions per term
-

# The year in review

**Streetwise Lancashire has had another successful year of providing activities and groups for the local community and youth by our amazing team of volunteers.**

This year the exciting news of successful sponsorship and funding bids being drawn down enhances the future of Streetwise Lancashire.

The impact of the funding has already enabled paid roles to be established , hence, not relying on the charity of volunteers. Roles such as Managing Director, Comms and Centre Manager, Cleaner, Gardener and Maintenance Worker are already delivering benefits to the organisation . The paid roles enable Streetwise to scale up to the vision which the founders have. More delivery of positive sessions, creation of new groups, increase of network and bid writing will ultimately increase general sponsorship and funding .

# We'd like to thank all our donors for their generous support
